Attention: Certificate of Correction Branch

Sir:

REQUEST FOR CERTIFICATE OF CORRECTION  
UNDER 37 CFR 1.322

RECEIVED  
JUN 20 2000  
CERTIFICATE OF CORRECTION

It is respectfully requested by the Assignee, Shell Oil Company of California, that the accompanying Certificate of Correction (Form PTO 1050) be issued to correct errors in the above-identified patent. The exact locations in the application file that justify the corrections set forth in the certificate are identified below.

The change to the "Notice" section in the first column of the title page is in accordance with the Terminal Disclaimer filed on March 23, 1998.

The corrections to claims 13 and 30 of the patent are consistent, respectively, with application claims 99 and 104, which claims correspond to these two patent claims, as they appear, respectively, on pages 5 and 6 of the "Amendment" filed on March 23, 1998.

The change to patent claim 23 is in accord with application claim 100, which claim was renumbered to claim 23 when the patent was issued, as that claim appears on page 6 of

Request for Certificate of Correction  
U.S. Patent No. 5,837,126

the "Amendment" filed on March 23, 1998.

The correction to the dependencies of claim 56 is in accord with the dependencies of application claim 137, which was renumbered to claim 56 upon printing of the patent, as it appears on page 13 of the "Amendment" filed on March 23, 1998. Application claim 137 depends from, among other claims, application claim 123, which corresponds to patent claim 41.

Finally, the change to the dependencies of claim 65 is in accord with the dependencies of application claim 138, which was renumbered to claim 65 when the patent was printed, as it appears on page 13 of the "Amendment" filed on March 23, 1998. Application claim 138 depends from, among other claims, application claim 127, which corresponds to patent claim 45 not claim 41.

Since it is clear from the above references to the application file that the errors corrected in the attached Certificate of Correction were made by the Patent and Trademark Office, the certificate should be issued without charge to the patentee or assignee.

Respectfully submitted,

Gregory F. Wirzbicki
